

## Linking to a Detail Page from your Cart page

Have you ever wondered how to apply a link back to the details page of a product from within your eCart cart page? This How To shows the steps involved in applying this dynamic link directly to the placeholder image on the cart created by the eCart Display Manager.

### What Do You Need to Start?

- Dreamweaver CS3, CS4 or 8
- eCart 4
- Cart page created by eCart Display Manager

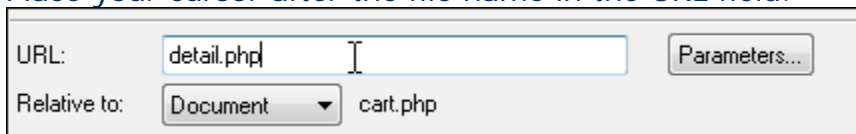

### Creating the link

Using Dreamweaver's built-in functionality, we can create the necessary dynamic link.

1. On your cart page, select the placeholder image.
2. From the Properties Inspector, choose the **Link** browse icon.

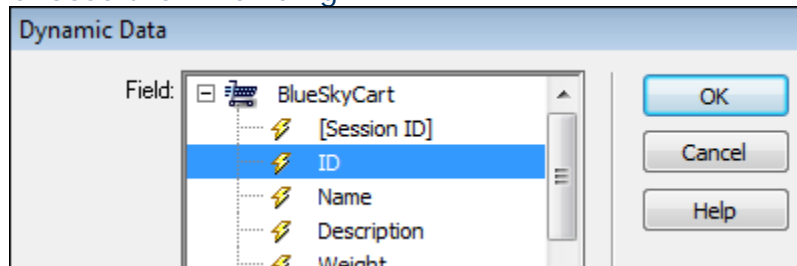

3. From the File list, choose the product detail page.
4. Place your cursor after the file name in the URL field.

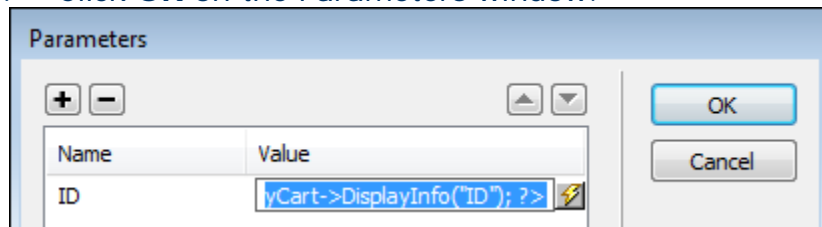

5. Choose **Parameters**.
6. In the Name field enter **ID**.
7. Select the Value lightning bolt.
8. Expand the **eCart** option.

9. Choose the ID binding.

10. Click **OK**.

11. Click **OK** on the Parameters window.

12. Click **OK** to close the Select File window.

13. Press **Ctrl (Cmd) + S** to save your page.

14. Press **F12** to preview your page in your browser.
